

Why Great Capitalists Support Communism

(Continued from Page 3, Column 3)

This is the real measure of the failure of Marxism. The purpose of Marxism was to create a unified world, under one management. It would be possible to trace in infinite painful detail the failure of Marxism. We could explore forever the labryinthine intrigues of Trotsky and Stalin. There is little profit in such exploration. Marxism failed because it is not legitimate; any historian will tell you quickly that any system of authority which is not legitimate will fail.

Russian policy today is not based upon Marxism; it is based upon the failure of Marxism. In order to understand the abyssal depth and magnitude of the failure of Marxism, we must understand clearly the original purpose of Marxism in Russia. The purpose of Marxism was to subjugate Russia, to make Russia entirely responsive to control from New York. It must be obvious to anyone today that Russia is not responsive to control from New York. The New York Times howls. TIME Magazine moans. U.S. NEWS AND WORLD REPORT says that "The Russian people should rise up and take their government into their own hands, as they did back in 1917." Jewish students gallop around New York with Russian-language textbooks under their arms; they are being trained to be the new cadre of "Revolutionists" in Russia. It is all vain, worthless, futile, a mere nursing of the forlorn hopes of yesteryear. Russia cannot be lured back into the kennel. The American Communists and anti-Communists alike labor to create the image of "Red Russia." They claim to "fight" each other, but they secretly work together. They work at the system of corrupt, rotten, and decadent technics which Gustav Krupp sought to replace with legitimacy in Germany; which Henry Ford fought tooth and nail in America.

Some of the anti-Communists do not like COMMON SENSE. They gallop around the country whispering that COMMON SENSE has "sold out." Conde McGinley sold out long ago; he sold his life to warn the American people against corrupt Jewish intellectual machinations. We are still in the same business. IF WE REALLY WANT TO FIGHT COMMUNISM IN AMERICA, WE MUST DEMAND THAT THE GREAT AMERICAN CAPITALISTS STOP SECRETLY SUPPORTING COMMUNISM, WHILE AT THE SAME TIME THEY MOUTH PIOUS "ANTI - COMMUNIST" SLOGANS. A. K. Chesterton has discussed this subject brilliantly in his book THE NEW UNHAPPY LORDS. The real headquarters of the Conspiracy are in New York; Moscow and Peking are merely branch offices. Rather, Moscow WAS a branch office until it declared its independence and virtually declared war upon the old headquarters in New York. Peking is still under New York control. The Maoist Revolution in China was the creation of the U.S. State Department, acting in obedience to the MONEY MEN of New York.

The kind of Capitalism which secretly supports Communism is not the only possible kind of Capitalism. Henry Ford entertained the concept of a legitimate Capitalism, which would exercise its powers in an open and legitimate manner, and would have no great, guilty secrets. Gustav Krupp certainly was one of the world's greatest Capitalists; yet he rejected the whole basis of industrial technics which dominates the Capitalist world today. Krupp insisted upon being a MAN, not merely a pawn in the class-interest game.

Unhappily, the funny little men who run the American system today are not men of any such caliber. They are completely subservient to the Jewish power game.

Today, the so - called "anti-Communism" of the American Conservatives is largely a worthless fraud. It does not penetrate deeply into the realities underlying World Communism. It holds itself carefully to a shallow level. It is careful never really to hurt Communism. It contents itself with worthless slogan-shouting, empty charlatanry, and the effort to use a myth made of whole cloth as a political lever.

Henry Ford Sr. one of the great capitalists who fought Communism tooth and nail, once said: "The only statement I care to make about the PROTOCOLS is that they fit in with what is going on. They are 16-years-old, and they have fitted the world situation up to this time, THEY FIT IT NOW."

American "anti-Communism" has come to its final ignoble end in Vietnam. We have moved into a small Southeast Asian nation and have carried on a military "make work" project for a number of years. Thousands of people have been killed. These include forty thousand young Americans in the prime of life. But we should not forget also the thousands of little brown-skinned people who have been killed. The Vietnamese are a charming people. I am no newcomer in Vietnam. I first went there thirty years ago when Ho Chi Minh was a stool pigeon for the French Colonial Police. I have known the Vietnamese a long time. A more utterly charming kind of people you could not hope to find. They were savagely oppressed and exploited by the French colonial regime. Now they have been subjected to the maniacal corruption of American "anti-Communism." The American Establishment does not intend to allow anybody to fight a real battle against Communism. The Vietnam war could have been won in six weeks. It took real genius to prolong it over the years and kill untold thousands of people. Now we are going to pull out of Vietnam without having accomplished anything. When the braying jackasses of American "anti-Communism" gallop around the American landscape and fight their no-win war against Communism, nobody is in danger of dying of anything except boredom and disgust. In Vietnam thousands of people have died of bullet wounds. This is the corrupt action of a rotten "Establishment" which has secretly promoted Communism around the world for seventy years, all the while mouthing pious "anti-Communist" phrases. This is not real "anti-Communism." This is the lowest form of Charlatanry; this is THE UNPARDONABLE SIN, the sin against the Spirit, the Evil for which there is no pardon either in this world or the next.

Charges of "sell-out" are resounding through the back stairs of American Conservatism today. It is being charged that Barry Goldwater "threw" the 1964 election, or that Robert Welch has "sold out to the enemy." The real essence is not that anybody has sold out to anybody else; this is simply the way the system works. Everything must be "channeled." There are "Left Wing" leaders who channelize the working class and the discontented; there are "Right Wing" leaders who channelize the prosperous and successful. We are being governed today, not by Constitutional government, but by technology. What we have is not "private enterprise" but "private government" by the great banks, which use Marxism and anti-Marxism alike to rule us through a managed interplay between "Right" and "Left." This system of government is not legitimate, and a system which is not legitimate will fall. It will fall even if it produces the chimera of "prosperity."

Today the life of the American civilization hangs in the balance. It must either become legitimate or else it will die. The mere "Right Wing" promises nothing in the way of real legitimacy. The "Right Wing" and the "Left Wing" are merely the byproducts of "Rothschild Bank Judaism," of Jew Marxism. There is no longer any real political

profit to be taken from the "Right" or the "Left." These quaint old Nineteenth Century antiques should be put into dead storage and left there. If we continue to cling to them, we shall only prove that we have become a politically worthless nation. We shall be only the tail of the kite of Jewish policy which is failing around the world. The Jewish policy which is failing is not really Jewish in the sense of being rooted in the ancient Jewish religion; it is merely APOSTATE Judaism, and in fact is as much against the old Jewish religion as it is against any other kind of religion. It uses the embalmed corpse of the old religion as a mask for thoroughly secular rackets. The Marxist Jew is not a religious Jew; he is not the same as the Jews of the Middle Ages. He is the GERMAN Jew, the "Rothschild Bank Jew." The GOTTERDAMMERUNG show-down between Germans and Jews which occurred in the 1930's and 1940's was primarily a rivalry between German legitimacy and Jewish Apostasy. The apostate Jew was the inventor of a system of opinion-management and industrial technics which dominates American Capitalism today. Not all Capitalists have been ecstatic about this system. Henry Ford and Gustav Krupp alike saw clearly the folly and fatality of it. It is very difficult to make a popular political cause of the reform of technics, because the basic matters involved are largely beyond the ken of the average man. But unless this is done, there is no doubt about what the future holds. The industrial civilization will fall from one level of chaos and disaster to another until it is utterly destroyed.

Frankly, American Conservatism is not well-fitted to undertake such a task today. It is too often satisfied with shallow slogan-howling, empty catchwords, and narrow self-interest. Where is YOUR Gustav Krupp? Where is YOUR Oswald Spengler? Where are your great men? Do not again parade before us the empty humbugs of yesteryear and try to tell us that they are "Great Conservatives." They are merely great gasbags. They are good for nothing except to make speeches before meetings of B'nai B'rith promising that "Israel will not become another Czechoslovakia." This too is mere gasbaggery, as the Jews will learn to their sorrow. There is no humbug worse than an American humbug; we have come to the time when solid intellectual substance must take the place of empty humbug, or else we are finished.

ERRATA

Under the caption "These are times that try men's souls" our May 1 issue contained the statement: "their 30 cent dollars won't go any further than ours." One of our readers tells us, according to Dan Smoot, our present dollar is worth 15 or 16c of the 1934 dollar. Thus we have only half of what we THOUGHT we had!
